

A BUTTER TRUST.

Eben Dudley Claims To Have Been Forced to Sell Business.

CHICAGO, July 17.—A dispatch to the Tribune, from Detroit, Mich., says:—It was announced in the United States District Court here yesterday that a butter trust exists in Michigan, known as the American Farm Products Company, and capitalized at \$1,000,000. Attorneys from Chicago, New York, Owosso, Saginaw, and other cities of the United States, in court, asked that Eben F. Dudley be restrained from engaging in the butter and creamery business at Saginaw.

Dudley, through his attorneys, straight way made claim that the company is a trust.

Lawyers for the American Farm Products Company stated during the day that Dudley had sold out his business

at Owosso and Saginaw in 1896 and had promised not to engage in business again, and they asked that permanent injunction be issued restraining him from doing business and that he had agreed to refrain from doing so.

Attorneys for Dudley said that their client had been forced to either sell at the trust's prices or be put out of business and that the trust had broken an agreement to pay him \$12,000 a year salary.

Judge Swan denied the petition for injunction.

NEW YORK LIBRARY

New York's New and Magnificent Building Near Completion.

WILL BE 63 MILES OF SHELVES

Description of a Wonderful Library Building—As Near Fireproof As Human Ingenuity Can Assure It—The Walls Six Feet Thick At Base.

NEW YORK, July 17.—In the "most magnificent public building in the United States," as New Yorkers characterize the new Public Library, now nearing completion at Fifth avenue and 42nd Street, on the site of once famous reservoir, there will be sixty-three miles of book shelves. It is estimated that these shelves will afford lodgment for about 3,500,000 volumes.

Realizing the extreme value of the treasures which will be stored here, the architects and builders have taken especial care to make certain that this large collection shall be safe from fire. The beautiful structure will be as nearly fireproof as human ingenuity can assure.

The walls of the building are of massive stone, shining white. It fills the entire frontage of two city blocks from 40th to 42nd street, facing east. It is 394 feet long, 274 feet deep, and 130 feet above the ground at its highest point. Selected stones from the walls of the old reservoir compose a large part of the foundations. The walls are six feet thick at the base. The marble facing is composed of solid blocks a foot or more thick.

From the standpoint of library arrangement the stack room at the rear, overlooking Bryant Park, is the unique feature of the library. In the room, which is 297 feet long, 78 feet wide and 53 feet high, is a structure of steel beams covering almost the entire space. This is to be bookcase. Four and a half million pounds of steel were put into it. The weight will fall upon 704 cast iron columns, bolted at their bases to solid rock. Floors and partitions will be made of hollow blocks of porous terra cotta which manufactured under a heat equal to that of any possible conflagration, is unburnable. The interior steel columns in the library, too, are protected against fire by the hollow blocks, for it has been proved by tests that steel gives way when exposed to very great heat.

The principal reading room is in the top of the building and its windows look on Fifth Avenue and on Bryant Park. By day all light will be furnished by the sun, and the big room, on account of its lofty and open position, will be especially well lighted. It will be a show place of the city.

Between the reading room and the stack room beneath there will be direct vertical communication. When a reader wants a certain book he gives his order to an attendant near his seat, and in three or four minutes the desired volume is in his hands.

The basement contains parcel rooms, a department for the exhibition of patients a special library of children's books, a luncheon room, a book bindery, quarters and lockers for employees, and an office of the circulating department of the library.

Man Zan Pile Remedy comes put up in a collapsible tube with a nozzle. Easy to apply right where the soreness and inflammation exists. It relieves at once blind bleeding, itching or protruding piles. Guaranteed. Sold by Frank Hart's Drug Store.

HENRY LEWIS CARTER DIES.

NEW YORK, July 17.—Henry Lewis Carter, president of the Yorkhaven Water & Power Company of Yorkhaven Pa., died suddenly from apoplexy yesterday in his home here. He was 51 years of age, and well known among financiers and paper manufacturers.

At Yorkhaven, Mr. Carter directed the building of the largest power dams in the world, a line of masonry two miles long having been thrown across the Susquehanna. The power is transmitted to points one hundred miles away.

Tax the Women of Astoria the Same as Elsewhere.

Hard to attend to household duties With a constantly aching back.

A woman should not have a bad back,

And she wouldn't if the kidneys were well.

Doan's Kidney Pills make well Kidneys.

Mrs. A. S. Cummings, of 244 Clackamas street, Portland, Oregon, says: "Kidney complaint and backache clung to me for a long time and often I suffered very severe attacks of it. Sometimes it was a dull heavy aching over the kidneys, and again sharp acute pain in the small of the back. The kidney secretions passed frequently and often with pain. I had tried several remedies with poor results and was finally induced to use Doan's Kidney Pills. They helped me very quickly and continuing their use I soon found relief from the aches and pains. The action of the kidney secretions was also strengthened to a great extent. I recommended Doan's Kidney Pills in our papers three years ago. I am always pleased to say a good word for this remedy and am glad of this opportunity to confirm my former testimony."
